

AL Dietary

Document Dietary Assessment

1. From the Dietary Access menu, click **Dietary Assessment**, select name(s) (hold down the **CTRL** key on the computer keyboard if needing to select more than one name).
2. A two-way split screen will appear. The top half of the screen is a Write screen and the bottom half is a View screen. The view screen will display previous notes and other pertinent information.
3. Document the assessment by working from left to right.
4. When finished documenting on this screen, click the **Sign** button.
5. The next topic will load. Once completed with the assessment, the user will be brought back to the Dietary Access menu.

Dietary Access	Charting	Chart Review	Reports		MDS/CAAs/ Care Plans	Schedule	Internal Memo
Main Menu	Progress Notes	Dietary Notes	Dietary Notes	Intake Averages	Continue Assessment	Resident	Write Internal Memo
	Dietary Assessment	Meal Intake	Weekly Weights	Diet List	View/Print Assessment	MDS	
	Tray Card	Risk Review	Weekly Weight Graph	Tray Cards	Work CAAs	Care Conference	
	Dining Services	Food Intake <75%	Monthly Weights	More Reports	Print CAAs		
	Record Meal Intake	View Chart	Monthly Weight Graph		Care Plans		
	DC Arrangements / Summary						

Dietary Assessment includes: Dietary Notes (progress notes), Nutrition Risk Assessment, Nestle MNA, Dietary Assessment (Section K items of the MDS), Tray Cards, and Dietary/Nutritional Care Plans.

Using the Clinical Calculator

This can be used to calculate the following items: BMI, BEE, IBW, Calorie Needs, Minimum Protein, Maximum Protein, and Total Fluid Needs. This will only calculate *accurately* if the resident's age, sex, height, weight, activity factor, injury factor, protein factor, and fluid factor *all* are documented.

1. From within the Dietary Notes portion of the Dietary Assessment, click **Go To Dietary Calculations**.

2. Select **Tasks**.
3. Select **Dietary Calculations** and click **Load**.
4. Click **Name(s)** and select the desired resident.
5. Click **OK**.
6. Select **Calculate** in the top left portion of the screen.
7. Calculation results will be displayed. Review the results and select **Write All** at the top of the screen if you wish to save the calculations to the chart.
8. If "Write" was selected, calculations can be viewed following the instructions below for **Viewing Dietary Documentation**.
9. Click **Exit** to return to the Dietary Assessment.

Document Other Charting

1. From the Dietary Access menu, click onto the button to chart into, select name(s) (hold down the **CTRL** key on the computer keyboard if needing to select more than one name).
2. A two-way split screen will appear. The top half of the screen is a Write screen and the bottom half is a View screen. The view screen will display previous notes and other pertinent information.
3. Document the assessment by working from left to right.
4. When finished documenting on this screen, click the **Sign** button.

Tray Cards: Can be used to indicate resident's dislikes, food sensitivities, meal preferences, and location of meals. This generates tray card reports which can be used to help staff during mealtimes.

Dining Services: Can be used to charge a resident for a guest meal. This can be used simply as a tracking tool if your facility does not use our Financial module in ECS.

Meal Intake: Can be used to chart a resident's meal intake. There are options for Breakfast, Lunch, and Dinner; as well as the capability to review meal intake charting completed by Dietary Aides or CNAs.

DC Arrangements/Summary: Can be used to document a resident's discharge summary and/or any of their discharge arrangements to be aware of. There are a couple reports including: Discharge - Plan of Care and Discharge Summary, which can be viewed from this screen as well.

View Charting Documentation

1. From the Dietary Access menu, click onto a button underneath the Chart Review column.
2. Select name(s) and click **OK**.
3. Select more than one resident by holding the **CTRL** key on the computer keyboard.
 - a. If a Control screen appears, put in a start and end date and click **OK**.

- i. Click **Go** at the top of the view screen to retrieve the notes in the specified date range.
4. When finished viewing, click **Exit**, which will take the user back to the Dietary Access menu.

Dietary Notes: Allows the user to select a date range and view all dietary notes completed within the specified date range. The date/time/initials of who completed the entry will display to the left of each entry. To view discontinued entries, click **Control** and place a check mark in **D/C'd Entries**. Next, click **OK** and then **Go**.

Meal Intake: Allows the user to select a date range and view all meal intake charting completed within the specified date range. This charting is typically completed by a Dietary Aide or CNA. The date/time/initials of who completed the entry will display to the left of each entry. To view discontinued entries, click **Control** and place a check mark in **D/C'd Entries**. Next, click **OK** and then **Go**.

Risk Review: Allows the user to select a date range and view all dietary "risk" notes completed within the specified date range.

This task will include residents with the following:

- A significant change in weight/vitals
- Orders for diet/supplements
- Orders for any of the following types of medications: antidiabetics, antacids, antiemetics, antihyperlipidemics, digestive aids, dietary products, diuretics, endocrine and metabolic agents, gastrointestinal agents, laxatives, multivitamins, minerals and electrolytes, nutrients, and ulcer drugs
- Meal intake of less than 50%

The date/time/initials of who completed the entry will display to the left of each entry. To view discontinued entries, click **Control** and place a check mark in **D/C'd Entries**. Next, click **OK** and then **Go**.

Food Intake: Provides a calendar report for the current month which displays any day(s) residents had an intake of 75% or less of their meal. This allows the user to focus on specific groupings to determine if the meal on that specific date was potentially not as popular as meals on other dates. Click **Control** to adjust the date ranges and then **OK** once new dates are selected.

View Chart: Allows a user to select any documentation within the records granted rights to view. Click **Topic** or **Task** to choose the area of the chart to be viewed. Click **Control** to select a start and end date. Click the **Look** tab to select other options to view (*i.e.*, show names of initials, topic name, cosign, or free text highlighter). Once all options have been selected, click **OK** and then **Go** to retrieve the requested information.

- Adjust the font size by clicking **More...** and clicking on the big or little "A."

- Search for words within the view screen by clicking **More...** and onto the magnifying glass symbol. Type in the text to be searched and click OK. This feature will search both words that were clicked on within a topic as well as free text.
 - Click the arrow to the right of the search feature to have it bring you to the next found word. 
- **Control button > Filter Tab**
 - **D/C'd Entries** - Displays all discontinued entries.
 - **Users** - Use this to narrow down the charting being viewed based on the user(s) who entered it in. This is a great tool for auditing specific user(s) charting.
 - **Free Text** - Allows the user to search within the charting on the view screen for a specific free typed word. If wanting to search through all the fall notes for a specific caregiver's name, simply enter the name in the Free Text box, click OK and Go.
- **Control button > Look Tab**
 - **Separator** - For ease of viewing, the user may choose to add lines/spaces between entries or topics.
 - **Order** - Allows the user to determine the order in which the entries display on the screen.
 - **Show Name of Initials** - Displays the full name and title of the person who entered/discontinued each entry.
 - **Free Text Highlighter** - Used frequently in troubleshooting as it will turn all free text on the view screen blue.
 - **Show Topic Name** - Displays the topic that the entry was documented in.

Edit Assessments/Notes

1. Click the **Dietary Notes** button under the Chart Review column.
2. Select name(s) and click **OK**.
3. Select a date range and click **OK**.
4. Click **Go**.
5. Click the entry that needs to be edited. The entry will turn red. This is called 'tagging' the entry.
6. Click **Edit**.
7. Click the desired editing feature.
8. When using Append, DC and Explain, or DC and Copy, make the desired change and then click **Next**.
9. Click **Go** to see your changes.

Editing features which are bolded are utilized most often in Dietary Documentation.

Editing Feature	Function	Example
Append / Append All	Information is permanently attached to the entry; further	Cosigning a student's documentation

	editing will not be able to be done to the entry except to discontinue	
New	A new, separate entry made in the same topic area	Not typically used when editing department notes. Can be used to see where an entry was charted
Copy	An exact copy of the entry is made	An entry was accidentally discontinued and needs to be made active again
Copy One (All) to Other Client[s]	An exact copy of the entry is made and placed in another resident's chart	An entry was accidentally made in the wrong resident's chart. Use ALL if more than one entry was selected
Discontinue and Append	Entry is discontinued and user is taken to a Write screen to document additional notes	An error was made in documenting the entry and the user would like to explain why the entry is being discontinued
Discontinue and New	Entry is discontinued and a new entry is made in its place	Not typically used when editing department notes
Discontinue and Copy	Entry is discontinued and a copy of the entry is displayed, allowing user to make changes to the original entry	User forgot to use a button word when documenting and would like to "insert" the word into the entry
Discontinue	Entry is discontinued	Not typically used when editing department notes
Discontinue All	All highlighted entries are discontinued for one client	Not typically used when editing department notes
Discontinue Multiple Client Entries	All highlighted entries are discontinued for multiple clients	Not typically used when editing department notes
Skip	Allows user to skip a highlighted entry	Accidentally highlighted an entry that does not need editing

View/Print Reports

1. From the Dietary Access menu, click the desired report button under the **Reports** column.
2. From the Name Selection screen, select the desired name(s) and click **OK**. Select more than one resident by holding the **CTRL** key on the computer keyboard.
3. Choose the appropriate date range if prompted to do so.
4. The report preview appears.
5. Click the printer icon in the upper left corner to print.
6. Click **Close** to return to the Dietary Access menu.

Dietary Notes: Prompts the user to select a date range. It then displays all dietary notes documented within that specific date range.

Weekly/Monthly Weights: Displays the last 12 weeks/12 months of weights, as well as any significant weight changes that may have occurred.

Weekly/Monthly Weight Graph: Displays the last 12 weeks/12 months of weights on a graph. This also pulls the resident's IBW, diet ordered, and any corresponding care plans. The graphs are interactive; thus, if you click a data point, it will take you directly to the corresponding entry.

Intake Averages: Displays a statistical report showing all the meal and snack intakes for the past week, as well as weekly averages.

Diet List: Displays all residents and their diet/supplement orders entered in the Physician Orders tab.

Tray Cards: Displays the 3-in-1 tray card option which includes all three meals listed on one tray card per resident. This can only be used if the facility is also documenting on the Tray Card screen.

More Reports: Displays all reports available within the system that the user has rights to. The user may select any report to view and click **OK**.

Write an Internal Memo

1. From the Dietary Access menu, click the **Write Internal Memo** button.
2. Once in the Internal Memo topic, the user will be presented with a pop-up that states, "This task has clients associated with it. Do you want to override your currently selected clients?" Always click **Yes**. (Messages written in this topic most likely will *not* have anything that belongs in their medical record, which is why a fake client is created to attach to this Internal Memo task so that all the messages written are on the fake client's record.)
3. Document the message to be sent.
4. Select a user group(s) to send the message to or click **pick user on Save** to select the person(s) from a user list once the entry is saved.

AL Dietary Access Screen

Dietary Access	Charting	Chart Review	Reports		Schedule	Internal Memo

If you happen to close the Access screen, click the Easy icon  to re-load the screen.

Access Screen Options

Charting

Dietary Assessment - This button will take you to the Dining Assessment. Work from left to right documenting the information that is known. When finished, click the Sign button to save the data and return to the Access screen.

Progress Notes - This button will take you to the Dietary Progress Notes area. Document any Progress Note information about the client. When finished, click the Sign button to save the data and return to the Access screen.

Tray Card - This button will take you to the Tray Card area. Here, you can develop tray cards for each meal for the client. When finished, click the Sign button to save the data and return to the Access screen.

Reports

Dietary Notes - This button will generate a print preview of the Dining Assessment documentation. To print, click the printer icon in the upper left corner of the print preview screen. When finished, click the Close button to close the print preview screen.

Tray Card - This button will generate a print preview of the Tray Card documentation. To print, click the printer icon in the upper left corner of the print preview screen. When finished, click the Close button to close the print preview screen.

Service Plan - This button will generate the Service Plan report. To print, click the printer icon in the upper left corner of the print preview screen. When finished, click the Close button to close the print preview screen.

Face Sheet - This button will generate a report of selected resident information, such as Allergies, room number, a photo, etc. You may print it if you'd like. When finished, click the Close button to return to the Access screen.

Other

Send Internal Message - This button will take you to an area where you can document a message to send to the staff (users) in the system. When documenting messages, you will always use the client Internal Message. After you have documented the message, click the Sign button. This will present a user selection screen. Select the user(s) to whom you would like to send the message. The screen will close and return you to the Access screen.

View Messages - This button will open the View Messages (internal communications) screen to view any messages you may have.

View Chart - This button will open a View screen. From here, you can select a section and topic to view information for specified residents.

Viewing Documentation

From the Access screen, click **View Chart**. The View Chart button allows the user to review selected information. Select the desired name(s) and click **OK**. Once inside the View Screen, click either **Topic** or **Task**, and select the desired Section/Topic or load the desired Task. Then click **Go**. To narrow the dates for review, click onto **Date From** and/or **Date To** and click **Go**. The View screen may be printed by clicking on the **Print** button located under the **More...** option. Click **Exit** to return to the Nurse Access screen.

- Adjust the font size by clicking **More...** and clicking on the big or little "A."
- Search for words within the view screen by clicking **More...** and onto the magnifying glass symbol. Type in the text to be searched and click **OK**. This feature will search both words that were clicked on within a topic as well as free text.
 - Click the arrow to the right of the search feature to have it bring you to the next found word.

Topic

Clicking onto **Topic** allows the user to navigate through the Sections and Topics that they have access to. Users may even select a specific word within a topic to narrow their search down further. For example, if a user wants to view any "Observed Falls," they would click Topic > Nursing > Double click into Fall Note > click onto the "observed fall" word and click **OK** and then **Go**.

Task

Clicking onto **Task** allows the user to load a pre-determined task item. Once a task is highlighted, click **Load**, and **Go**. Examples of Tasks include: Blood Pressures, Diagnoses, Fall Lis Past 31 Days, Infections - Unresolved, Medication Review (Psychotropics), Pain Review, and Vital Signs.

Control Button

The Control button within the View screen gives the user more options as to how they would like to view the information. Some more popular options within here are listed below:

- **Filter Tab**
 - *D/C'd Entries* - Displays all discontinued entries.
 - *Users* - Use this to narrow down the charting being viewed based on the user(s) who entered it in. This is a great tool for auditing specific user(s) charting.
 - *Free Text* - Allows the user to search within the charting on the view screen for a specific free typed word. If wanting to search through all of the fall notes for a specific caregiver's name, simply enter the name in the Free Text box, click OK and Go.
- **Look Tab**
 - *Separator* - For ease of viewing, the user may choose to add lines/spaces between entries or topics.
 - *Order* - Allows the user to determine the order in which the entries display on the screen.
 - *Show Name of Initials* - Displays the full name and title of the person who entered/discontinued each entry.
 - *Free Text Highlighter* - Used frequently in troubleshooting as it will turn all free text on the view screen blue.
 - *Show Topic Name* - Displays the topic that the entry was documented in.

Editing Documentation

1. Follow steps above for viewing information.
2. Click the entry that needs to be edited. The entry will turn red. This is called 'tagging' the entry.
3. Click the **Edit** button.
4. Click the desired editing feature. Refer to the table below for editing features.
5. When using Append, DC and Explain or DC and Copy, make the desired change and then click the **Next** button.
6. Click **Go** to see the changes.

Editing Feature	Function	Example
Append / Append All	Information is permanently attached to the entry; further editing will not be able to be done to the entry except to discontinue	Cosigning a student's documentation
New	A new, separate entry made in the same topic area	Not typically used when editing department notes. Can be used to see where an entry was charted

Copy	An exact copy of the entry is made	An entry was accidentally discontinued and needs to be made active again
Copy One (All) to Other Resident[s]	An exact copy of the entry is made and placed in another resident's chart	An entry was accidentally made in the wrong resident's chart. Use ALL if more than one entry was selected
Discontinue and Append	Entry is discontinued and user is taken to a Write screen to document additional notes	An error was made in documenting the entry and the user would like to explain why the entry is being discontinued
Discontinue and New	Entry is discontinued, a new entry is made in its place	Not typically used when editing department notes
Discontinue and Copy	Entry is discontinued, copy of entry is displayed allowing user to make changes to the original entry	User forgot to use a button word when documenting and would like to 'insert' the word into the entry
Discontinue	Entry is discontinued	Not typically used when editing department notes
Discontinue All	All highlighted entries are discontinued for one resident	Not typically used when editing department notes
Discontinue Multiple Resident Entries	All highlighted entries are discontinued for multiple residents	Not typically used when editing department notes
Skip	Allows user to skip a highlighted entry	Highlighted an entry that does not need editing
